HCT-202503-02

EU Published Toy Test Methods

EN 71-15:2025, EN 71-16:2025 and EN 71-17:2025

On 26 February 2025, the European Committee for Standardization (CEN) published three test methods for toys.

- EN 71-15:2025, Safety of toys - Part 15: Formamide in foam toy materials (content).
- EN 71-16:2025, Safety of toys - Part 16: Certain chlorinated phosphorus flame retardants (TCEP, TCPP, TDCP) in toy materials.
- EN 71-17:2025, Safety of toys - Part 17: Certain isothiazolinones (MIT, CIT, BIT) in aqueous toy materials.

The three new standards will be given the status of national standards and the conflicting national standards will be withdrawn by August 2025 at the latest.

The standards are expected to become harmonised standards under the Toys Safety Directive 2009/48/EC after they are accepted by the European Commission and are published on the Official Journal of the European Union (OJEU).

CEN/TC 52 Published Standards

Project reference, Title	Publication date
EN 71-15:2025 (WI=00052128) Safety of toys - Part 15: Formamide in foam toy materials (content)	2025-02-26
EN 71-16:2025 (WI=00052133) Safety of toys - Part 16: Certain chlorinated phosphorus flame retardants (TCEP, TCPP, TDCP) in toy materials	2025-02-26
EN 71-17:2025 (WI=00052134) Safety of toys - Part 17: Certain isothiazolinones (MIT, CIT, BIT) in aqueous toy materials	2025-02-26
